

PS Solar Pump Systems for Pools

LORENTZ PS Swimming Pool Pumps are high quality products designed for use in residential and commercial swimming pools and spas. In most pool applications all of the filtration needs can be met directly from solar panels meaning no electricity costs and significant benefits to the environment.

The LORENTZ pump uses a DC brushless motor for high efficiency and reliability, it is connected to a solar generator via a controller. The controller monitors the system, controls the pump speed and optimizes the amount of water pumped based on the power available.

Benefits

- Zero energy costs provide a very fast return on investment
- Longer life expectancy than standard AC motors
- Quiet and efficient
- Proven in service record
- Speed controllable to match the pool size exactly
- Smart modular design for simple and cost effective servicing and repair
- Fast and simple installation, direct replacement for an existing pool pump

Features

- Engineered in Germany
- EC DRIVEDC brushless motors, designed for solar with over 90% efficiency
- High quality non corrodible materials used throughout
- Solar direct connect with AC connection options
- MPPT technology to maximise power use from PV modules
- Optional data logger

pump system	PS600 CS-17-1	PS1800 CS-37-1
max. total dynamic head (TDH) [m]	12	14
max. flow rate [m ³ /h]	19	36
solar operation:		
max. power voltage (Vmp)* [VDC]	> 68	> 102
open circuit voltage (Voc) [VDC]	max. 150	max. 200
nominal voltage [VDC]	48–72	84–96
battery operation:		
nominal voltage [VDC]	48	96
pump type	centrifugal pump	centrifugal pump
integrated strainer	■	■
suitable for sea water	on request	on request

*) PV modules at standard test condition: AM = 1.5, E = 1,000W/m², cell temperature: 25 °C

All specifications and information are given with good intent, errors are possible and products may be subject to change without notice. Pictures may differ from actual products depending on local market requirements and regulations. A pump system consists of a controller, motor and pump end. Multiple pumps/pump ends are shown to represent the wide range of pumps (over 70) that LORENTZ has.
